

Duquesne Residents:

Chenal Properties' Architectural Committee controls the type of mail box and stand that should be used in Duquesne. This includes the style and color. Some residents may not be aware of these restrictions.

The approved mailboxes and posts can be found at **www.melnorthey.com**. The “standard” boxes are black and are catalog numbers 1018A, 1018BP, 5518A, and 5518B. None are locking boxes.

Chenal Properties has approved only one style of locking box, catalog number is avm-200.

This box can be found at **www.themailboxstore.com**.

Chenal Properties has also approved the use of a lockable insert which slides inside of a standard mail box. The lockable insert is attached to the mail box by a lock tight nut and bolt. Inserts can be purchased at **www.mailboxshoppe.com**. You may want to research other manufacturers for this type of insert and pricing. The lockable inserts do not alter the outside appearance of the standard box and they offer protection of mail at a smaller cost.

Also, several mail boxes in Duquesne have been decorated with personal themes which cover a portion, or all, of the black mail box. Chenal Properties has not approved the use of personal decoration in Duquesne.

If anyone has questions about mailboxes you are welcome to contact the POA Board at **duquesnepoa@yahoo.com** or Chenal Properties at 501.821.5555.
